

High-Thickness Putty

Technical Data Sheet

The specific range in paste form

Fiber-reinforced white filling putty, ideal to fill deep cracks and holes up to 2 cm in just one application. Really easy to apply and to sand. Good hardness and resistance to shrinking and cracking when dry with excellent adhesion properties. For interior use and for exteriors when coated with appropriate paint. Studied for application on concrete, cement, plasterboard, wall, masonry, stone, brick, gypsum, old paints. Excellent also for wood.
