## LA NOSTRA IDENTITÀ

Fin dalle origini e nello sviluppo dei propri prodotti, Adicolor si avvale delle più innovative tecnologie di produzione, di un team altamente specializzato, professionale e soprattutto, della grande passione per le vernici tradizionali e per l'affascinante settore degli effetti decorativi.

La continua e maniacale ricerca di una qualità sempre più elevata e il non sentirsi mai appagati dei risultati raggiunti, sono le chiavi fondamentali per la creazione di prodotti in grado di soddisfare le crescenti esigenze dei Clienti e salvaguardare il "Made in Italy".

Dopo oltre 30 anni di attività e nonostante il raggiungimento di una posizione di assoluto rilievo e prestigio sul mercato, abbiamo ancora la stessa voglia di stupirci e di stupire del primo giorno di lavoro.

Oggi non siamo in grado di prevedere cosa potrà riservarci il futuro, ma in Adicolor faremo del nostro meglio per influenzarlo sfruttando tutto ciò che abbiamo imparato ed impareremo, con il desiderio di portare il nome e la qualità della tradizione italiana ovunque sia possibile.

## OUR IDENTITY

Right from the start of activity and the first products developed, Adicolor has always availed of the most innovative production technology, a highly specialized and professional team, and above all, a great passion for traditional paints and for the fascinating field of decorative effects.

The continuous and obsessive search for an always higher quality standard together with the constant desire to improve the results achieved, are the key to creating products to meet the constantly growing demands of customers in all the world, always safeguarding the renowned "Made in Italy" concept.

After more than 30 years of business and despite achieving a leading and prestigious position on the market, we still have the same desire to amaze and astonish that we had when we started off.

Today we are unable to predict what the future will reserve, but in Adicolor we will surely do our best to give it a positive influence, using everything we have learned and will learn, with the desire to promote the name and quality of Italian tradition wherever possible.

## I PRIMI PASSI

Nel 1987 inizia la storia di questa Adicolor: tante, paure, tante speranze e tanti sogni.

*"Rivedo l'immagine del nostro camion che portava 3, sì, 3 bancali di Adimur ad un grossista di Bergamo". Oggi questa affermazione fa sorridere, ma all'epoca rappresentava un piccolo/grande successo.*

La scelta di garantire un servizio ottimale ed un rapporto qualità/prezzo vantaggioso per la clientela comincia a dare i suoi frutti, ma è con l'intuizione di investire nella produzione delle pitture decorative che Adicolor spicca definitivamente il volo.

L'azienda cresce in modo esponenziale e non solo in Italia. Nasce la Adicolor Canada Inc., inizia la costruzione del nuovo stabilimento di Mediglia e nel 2007 parte il primo container per la Cina.

Nel 2012, scelte strategiche azzeccate, acquisizioni, nuovi canali di vendita, ingenti investimenti su prodotti, immagine e tecnologia, consentono ad Adicolor di incrementare ulteriormente il proprio fatturato e di arrivare, oggi, ad essere una delle aziende di riferimento del settore.

## THE FIRST STEPS

The history of Adicolor begins in 1987: many hopes and dreams but also many fears.

*"I can still see the image of our truck carrying 3, yes, 3 pallets of Adimur to a wholesaler in Bergamo". Today this statement makes you smile, but for at that time it represented a small yet big success.*

The choice to establish an optimal level of customer service and an advantageous quality/price ratio began to prove successful, but it was with the intuition to invest in the production of decorative effect paints that Adicolor really started its evolution.

The company showed an exponential growth and not just in Italy. Adicolor Canada Inc. started its activity; the new production facility began to be constructed in the Milan suburb of Mediglia and 2007 saw the first container that went to China.

In 2012, well-aimed strategic decisions, acquisitions, new sales channels, huge investments on products, image and technology, enable Adicolor to notably increase sales, arriving today to be one of the reference companies in the sector.

## OGGI

### ALCUNI DEI NUMERI

- Siamo presenti in oltre 30 Paesi nel mondo;
- Abbiamo oltre 4500 mq. di siti produttivi;
- 5 logistiche esterne per lo stoccaggio dei prodotti;
- Fino a 75 tonnellate di produzione giornaliera.

### CERTIFICAZIONI

- La certificazione UNI EN ISO 9001 è testimonianza dell'efficacia del nostro Sistema Qualità, dell'approccio totalmente orientato al cliente ed alle sue specifiche esigenze e ci qualifica come azienda in grado di offrire i propri prodotti e servizi con elevati standard qualitativi.

## GLI OBIETTIVI

### MISSIONE

- Valorizzare e consolidare l'aspetto qualitativo dei nostri prodotti;
- Soddisfare le richieste e le necessità dei clienti;
- Essere sempre pronti a raccogliere le sfide del mercato.

### VISIONE

- Essere il luogo di lavoro dove le persone possono esprimere le loro capacità e sentirsi bene;
- Essere persone responsabili che contribuiscono a creare un ambiente solidale, eco-sostenibile e sereno.

### VALORI

- Educare alla diversità come ad una ricchezza;
- Sostenere l'affermazione delle pari opportunità;
- Vivere con onestà, integrità ed autenticità;
- Avere l'obiettivo di creare un futuro migliore per sé stessi e gli altri;
- Fare del proprio meglio in ogni aspetto della vita.

## TODAY

### SOME FIGURES

- We are present in over 30 countries worldwide;
- Over 4500 sq.m. of production plants;
- 5 external logistic centers for product storage;
- Up to 75 tons daily production capacity.

### CERTIFICATIONS

- The UNI EN ISO 9001 certification is a testimony to the effectiveness of our Quality System and to our total customer-oriented approach that is constantly targeted to meet their specific needs. This proudly qualifies us as a company able to offer products and services with high quality standards.

## THE OBJECTIVES

### MISSION

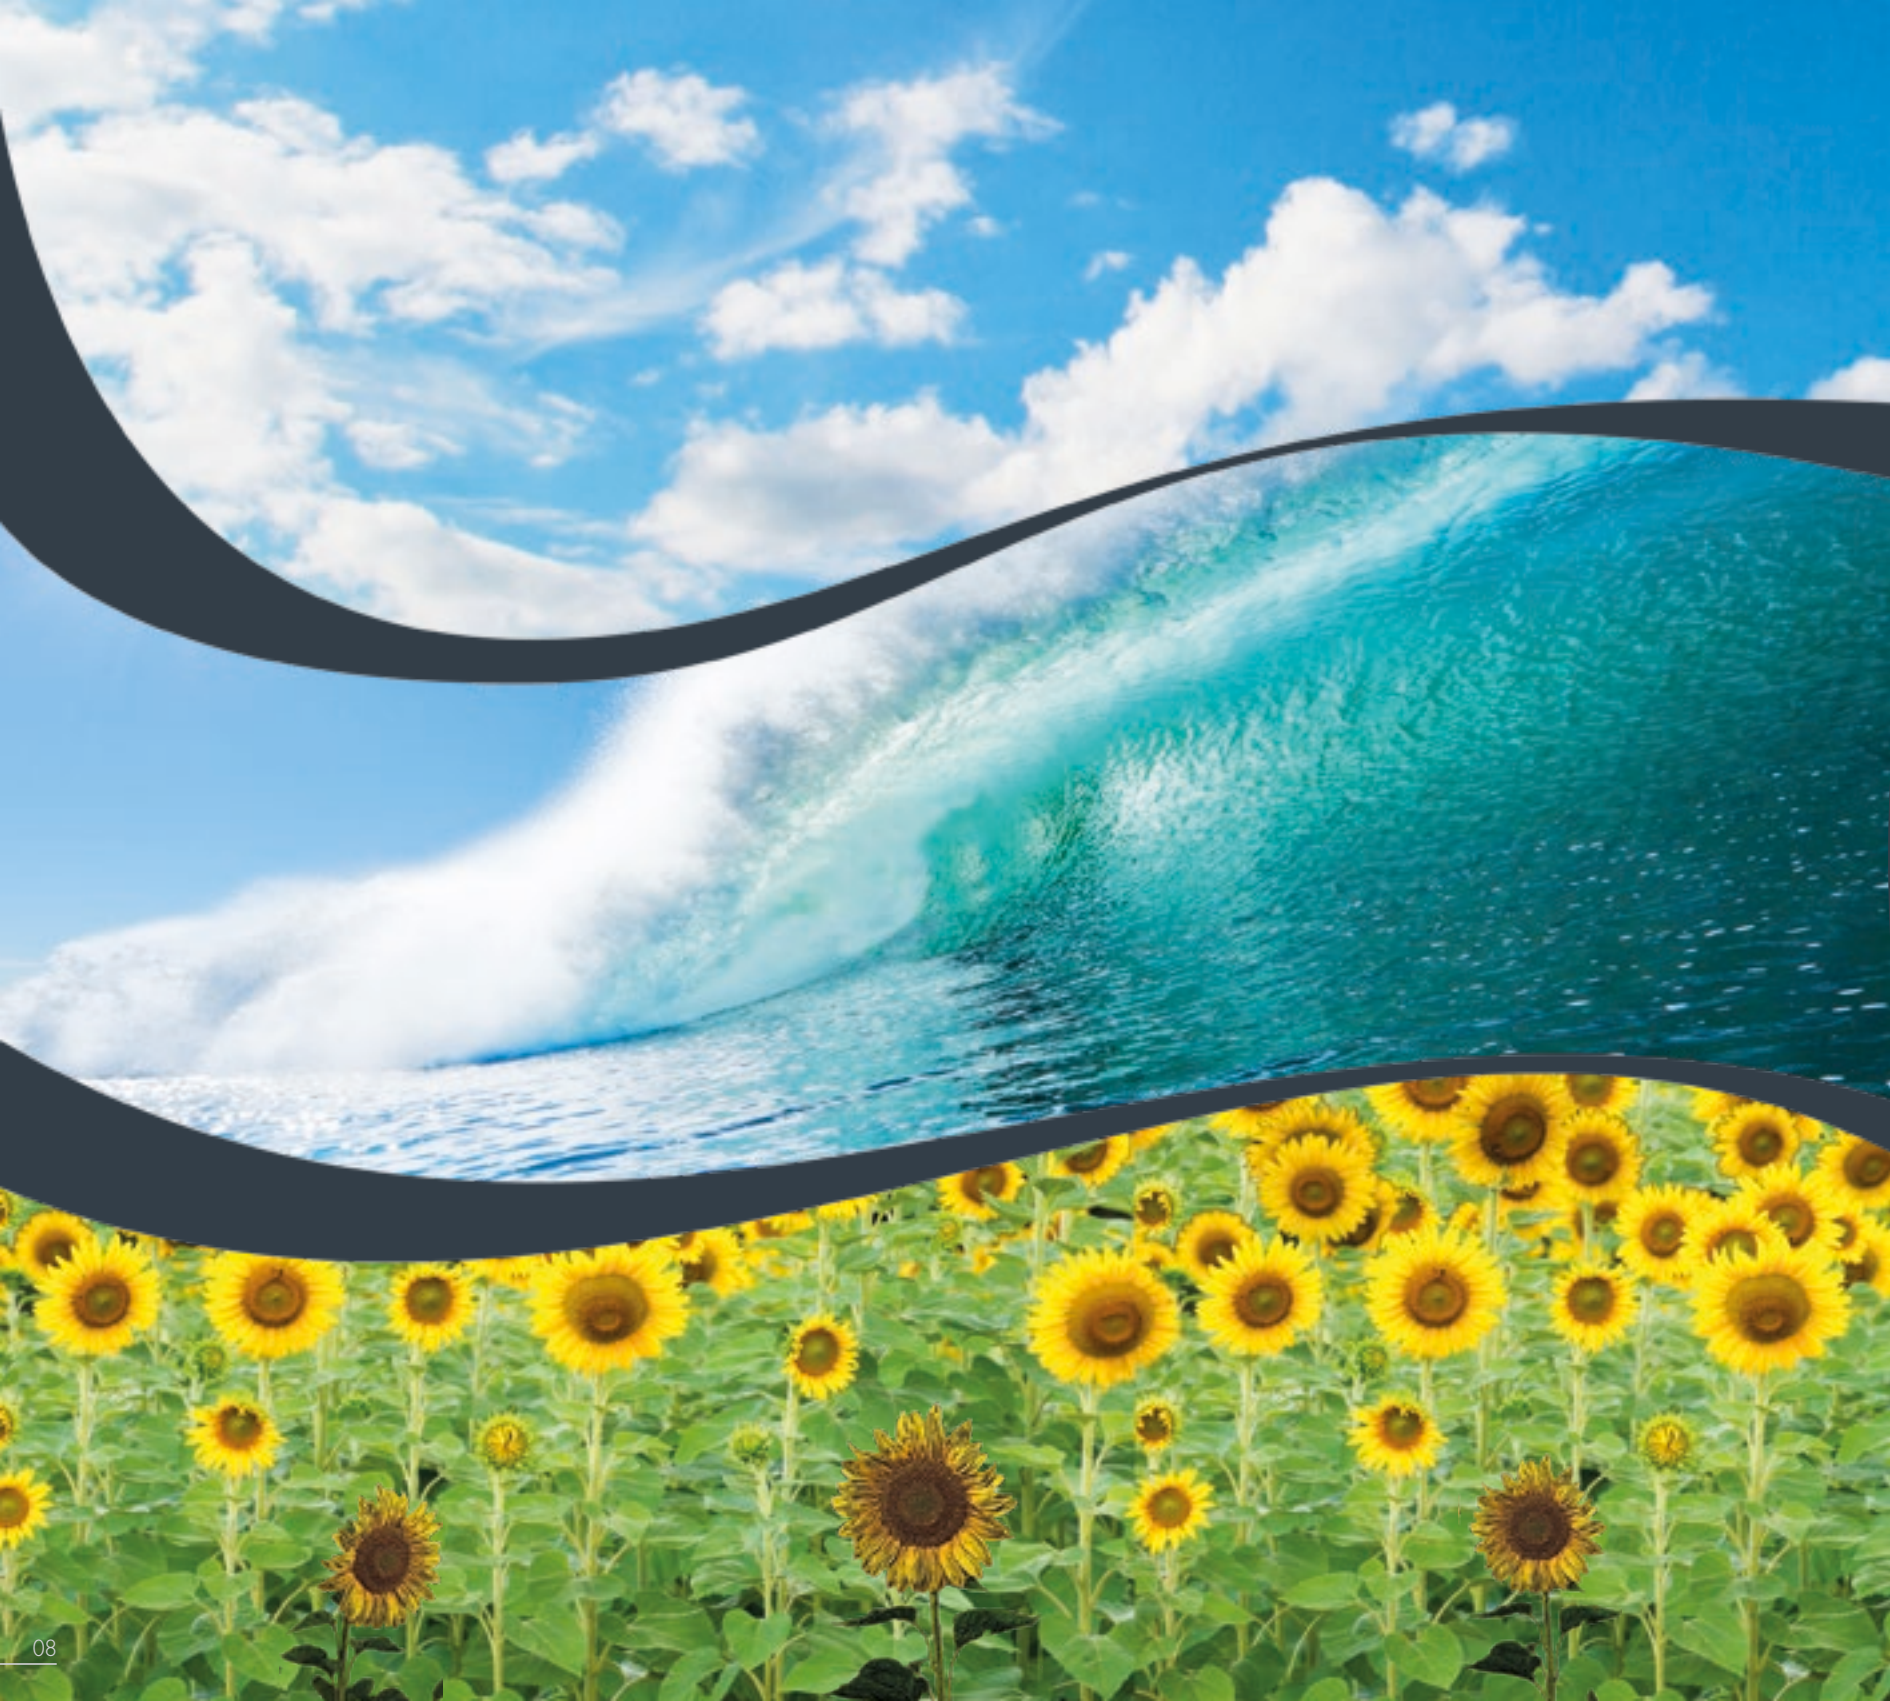

- Enhance and strengthen the quality aspect of our products;
- Meet customers' demands and needs;
- Be actively ready to face the many market challenges that are constantly brought forth.

### VISION

- Create an ideal workplace where people can express their skills and feel comfortable;
- Be responsible people who help to create a supportive, eco-sustainable and peaceful environment.

### VALUES

- Educate diversity as a cultural richness;
- Support the right of equal opportunities;
- Live with honesty, integrity and authenticity;
- Make a goal of creating a better future for oneself and for others;
- Always do ones best in every aspect of life.

## L'AMBIENTE

La tutela dell'ambiente e del territorio sono temi fondamentali della filosofia aziendale. Salvaguardare l'ambiente adottando comportamenti eticamente più responsabili a sostegno di uno sviluppo sostenibile è l'impegno quotidiano di ogni singolo addetto di Adicolor.

In linea con le "rigide" normative Europee, Adicolor si preoccupa di monitorare sistematicamente l'efficienza dei propri impianti produttivi col fine di minimizzare ogni tipo di emissione e garantire un ambiente di lavoro salubre e conforme a tutti gli standard di sicurezza.

In Adicolor si pone estrema attenzione ai risvolti ambientali legati alla gestione del ciclo di vita dei propri prodotti ed è massimo l'impegno profuso nello sviluppare standard qualitativi di eccellenza per poi promuovere prodotti più sostenibili e fornire migliori informazioni al consumatore.

Più in generale, ogni attività dev'essere il risultato di:

- rispetto e salvaguardia del territorio;
- rispetto e tutela della salute e della sicurezza dei propri addetti e della collettività;
- rispetto delle normative di settore;
- rispetto dell'obiettivo primario di creare prodotti sempre più eco-compatibili ed ecologici.

Siamo convinti che il nostro futuro dipenda solo dalle nostre scelte ed è per questo che abbiamo investito nella realizzazione di un impianto fotovoltaico.

L'impianto è già in funzione e fornirà all'azienda circa l'80% del fabbisogno energetico di cui necessita, contribuendo a ridurre sensibilmente le emissioni di CO2 nell'atmosfera.

## THE ENVIRONMENT

The protection of the environment and the territory are fundamental of our corporate philosophy. Safeguarding the environment by adopting a more ethically responsible behavior to support a sustainable development is the daily commitment of every single Adicolor employee.

In line with the "rigid" European norms, Adicolor is engaged to systematically monitor the efficiency of its production facilities with the aim to minimize any type of harmful emission and ensure a healthy working environment in full compliance with all safety standards.

Adicolor ensures that its products are constantly monitored in every environmental aspect in relation to all product life cycles and strives to develop higher quality standards in order to promote more sustainable products, providing a continuously improved level of information to the consumer.

More generally speaking, each task must be the result of:

- respect and protection of the territory;
- respect and protection of the health and safety of all employees and the community;
- compliance with regulations that govern our industry;
- progress in the key objective of creating more efficient, environmentally respectful and eco-friendly products.

We are convinced that our future depends only on our choices today and for this reason we have invested in the construction of a photovoltaic system.

The plant is already in operation and will provide the company with approximately 80% of the energy required, helping to significantly reduce CO2 emissions into the atmosphere.

## LA SICUREZZA

### IO USO LA TESTA!

Tutelo me stesso e gli altri se adotto comportamenti responsabili che non compromettano la sicurezza negli ambienti di lavoro;

Evito il disordine e la sporcizia perché lavorare in un ambiente ordinato e pulito, è fondamentale per la sicurezza e la salute di tutti;

Sostengo ogni tipo di attività ed iniziativa che abbiano lo scopo di preservare e/o di aumentare la sicurezza mia e dei miei colleghi;

Trasmetto e promuovo informazioni e comportamenti esemplari perché la sicurezza passa anche attraverso la collaborazione ed il rispetto;

Aiuto i miei colleghi a non correre rischi per la loro incolumità perché la sicurezza altrui mi riguarda allo stesso modo della mia.

## SECURITY

### I USE MY HEAD!

I Protect myself and others if I use a responsible behavior that does not in any way compromise safety within our workplace;

I Avoid untidiness and uncleanliness because working in a neat and clean environment, is surely fundamental for the safety and health of everyone;

I Support any type of activity and initiative that has the purpose of preserving and / or increasing safety for myself and for my colleagues;

I Promote and communicate information and model behavior because security also consist in cooperation and respect;

I Help my colleagues not to take risks for their safety because the safety of others is as much a concern as my safety is to me.

## LA RICERCA

Il cuore pulsante di Adicolor è rappresentato dalla sezione di Ricerca e Sviluppo che è da sempre impegnata nell'individuare ed adottare soluzioni che siano innovative, tecnologicamente all'avanguardia e soprattutto, eco-compatibili per la tutela del patrimonio ambientale e della salute delle persone.

Ogni anno l'azienda investe circa il 10% del proprio fatturato nell'attività di ricerca e nella messa a punto di nuovi prodotti per la protezione e decorazione delle diverse tipologie di supporti.

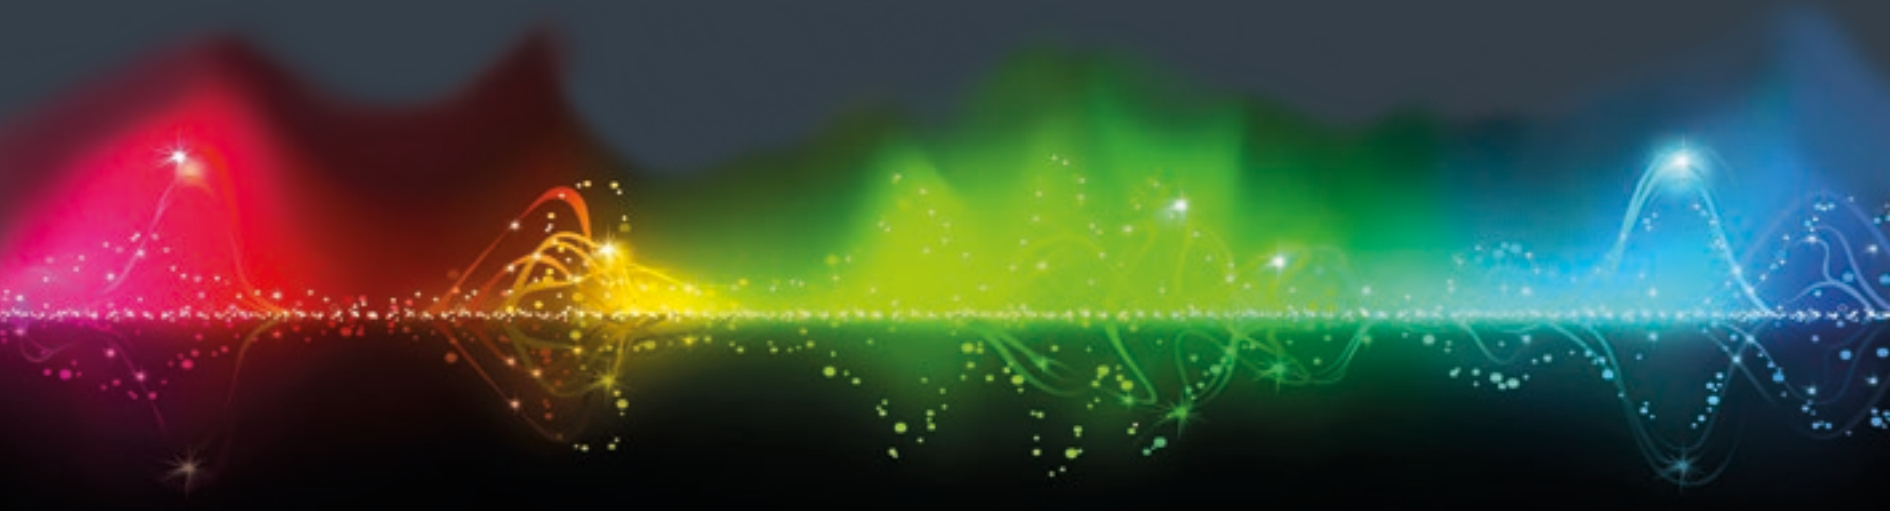

Attività che non può prescindere da una attenta selezione delle materie prime e che si sviluppa anche in collaborazione con le Università ed i principali Enti ed Associazioni di settore.

## RESEARCH

The heartbeat of Adicolor is represented by the Research & Development department that has always been committed to identifying and adopting solutions that are innovative, technologically advanced and above all, eco-friendly for the protection of the environment and people's health.

Every year the company invests about 10% of its turnover in the research and development of new products for the protection and decoration of different types of surfaces.

Activities that cannot be separated from the careful selection of the raw materials to be used, that are also developed in collaboration with Universities and major Organizations and Industrial Associations.

## I NOSTRI CLIENTI

Il nostro obiettivo principale è di instaurare un rapporto duraturo con i nostri clienti e che sia basato sulle reciproche fiducia e stima;

In modo particolare:

- Vogliamo conoscere e capire i loro bisogni per poterli servire al meglio;
- Vogliamo che ci considerino preparati, seri e soprattutto affidabili;
- Vogliamo che trovino in noi un partner qualificato che li sappia consigliare e guidare nella scelta del prodotto più indicato per le loro esigenze;
- Vogliamo che ogni incontro si concluda con una stretta di mano e col sorriso perché la soddisfazione dei nostri clienti è ciò che maggiormente ci gratifica e ci spinge a dare il massimo giorno dopo giorno.

## OUR CUSTOMERS

Our main goal is to establish with our customers a long-lasting relationship that is based on mutual trust and full respect.

Customer responsiveness is our priority:

- We want to know and understand our customers' specific needs to give them the best service possible;
- We would like to be considered as well prepared, serious and reliable suppliers;
- We want to be a qualified partner able to advise and guide our customers in the choice of the most appropriate product to suit their requirement;
- We desire that every meeting concludes with a hearty handshake and a smile, because our customers' satisfaction is what gratifies us most and gives us the courage and the inspiration to do our best every single day.

***La lana  
che decora le pareti***

L'abbraccio che avvolge e seduce nella sua naturalezza e nel suo caldo intrecciarsi come fili di lana colorata. Questo è WOOL, l'effetto decorativo a base acqua che riproduce la trama della lana bouclé.

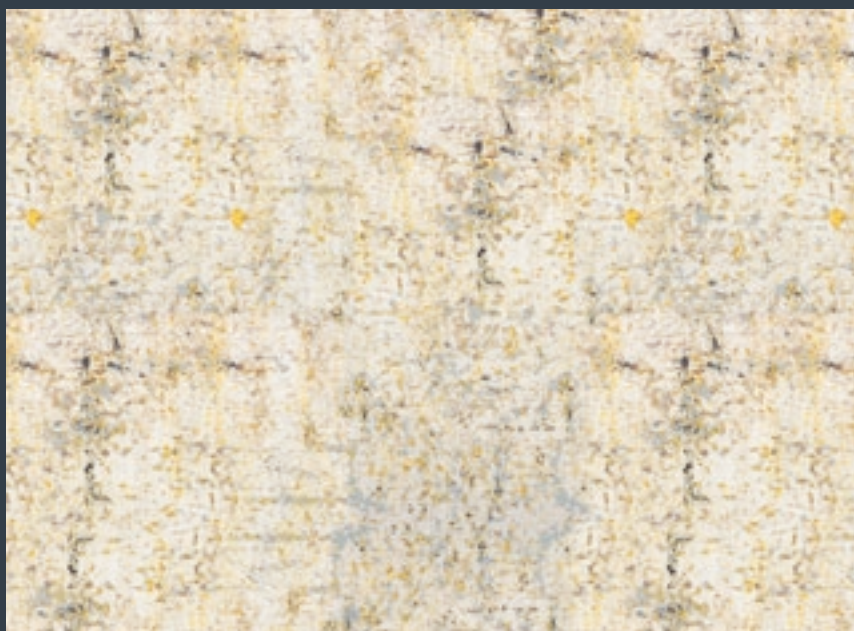

Disponibile in 8 colori, è lavabile e si applica facilmente in uno o due passaggi.

***A look of wool  
to decorate walls***

An embrace that surrounds and seduces in its natural warmth like woven strands of colored yarn. This is WOOL, the waterborne decorative effect that imitates the texture of a bouclé woolen fabric. Available in 8 colors,

WOOL is wash resistant and can be easily applied in one or two coats.

per un moderno  
effetto antico***

Una finitura di classe per la realizzazione di pareti dall'effetto metallico antico con giochi di ombre e colori esaltati dal variare della luce. Superfici preziose indicate sia per creare spazi moderni e di design che per donare eleganza e charme ad ambientazioni d'epoca.

***Decorative finish  
with a contemporary  
antique effect***

A highly refined decorative finish to create walls with an antique metallic effect and mysterious shadows and colors enhanced by the variation of light. Precious surfaces indicated both to highlight modern spaces or to give a touch of elegance and charm to vintage settings.

## *Finitura cangiante e translucida all'acqua*

Reflé è una pittura decorativa ad effetto perlescente che varia il proprio colore in base all'angolo della luce in cui viene vista. Gli speciali pigmenti fotocromatici, intercalati da giochi decorativi di sabbia, garantiscono effetti unici e di grande fascino.

## *Translucent, color-changing, waterborne finishing*

Reflé is a pearly effect decorative paint that has the unique characteristic of varying its color based on the angle of light in which you see it. The special photochromic pigments, combined with the subtle design of the sand, result in fascinating effects of great charm.

## **Shadé L** **Emozionanti e prestigiose** **finiture d'arredo**

Finitura decorativa metallizzata liscia di grande prestigio e raffinatezza. SHADÉ L caratterizza i vari ambienti donando atmosfere diverse e creando illusioni ottiche più o meno accentuate dal colore. Di alta copertura, è disponibile in 3 basi: oro, argento e alluminio.

### *The bold and striking waterborne metallic paint*

Smooth metallic decorative paint of great prestige and refinement. SHADÉ L distinguishes all types of environments by giving a striking and rich eye-catching atmosphere. The finish has a good opacity and is available in 3 bases: gold, silver and aluminum.

## **Shadé S** **Finitura decorativa** **metallizzata** **ad effetto sabbia**

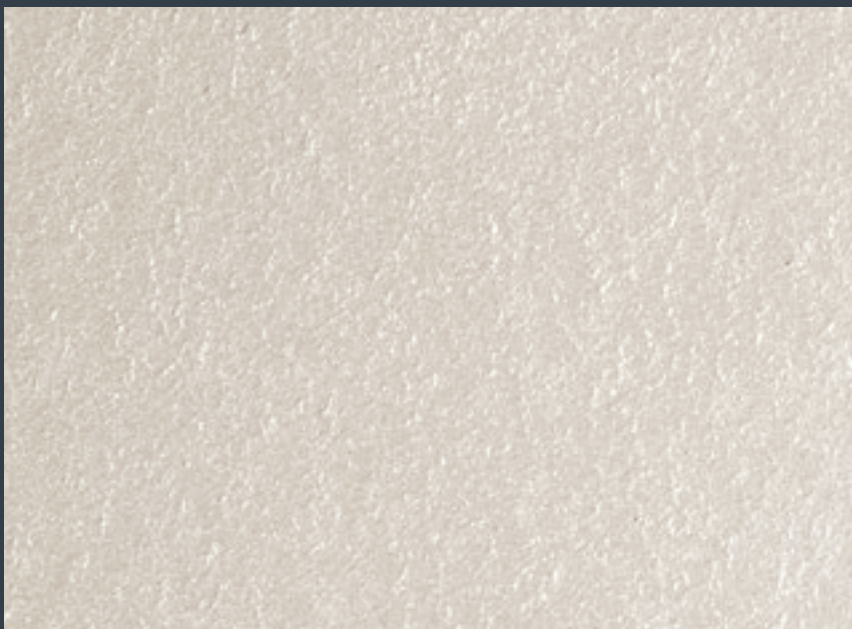

Finitura decorativa metallizzata, a base acqua, ad effetto sabbia di grande fascino ed eleganza. Alternando aree lisce ad altre ruvide, si creano contrasti e giochi di luce realmente unici e prestigiosi. La finitura è disponibile in 3 basi: oro, argento ed alluminio.

### *Metallic, sandy effect, decorative paint*

A bold and rich, sandy effect, waterborne, metallic paint of great charm and elegance that combines interesting smooth and other finely textured areas, creating settings of unique contrasts and reflections. The finish has good hide and is available in 3 bases: gold, silver and aluminum.

Tutte le tinte e gli effetti colore di questo catalogo sono riprodotti con i limiti di stampa CMYK ed hanno valore puramente indicativo. Visionare sempre i campioni dal vero per la scelta definitiva dei colori.  
 All the colors and effects shown on this catalogue have been reproduced within the limits of CMYK printing technology and are shown to give you an indication only. To select the final color to be used, always refer to a true product sample.

***Crema silossanica per decorazioni murali ad effetto cera patinata***

Finitura decorativa e protettiva, a base silossanica e di semplice applicazione, che permette di realizzare effetti sfumati con diversi gradi di intensità a seconda del risultato desiderato. La sfumatura, unitamente alla trasparenza, conferisce alle pareti un effetto visivo di leggerezza e delicatezza.

***Siloxane cream, patinated effect, wall decoration***

Decorative and protective, siloxane-based, glaze type finish that is very simple to apply. Velé allows you to achieve subtle cloudy, shaded effects with different grades of intensity depending on the desired result. The nuance, together with the transparency, gives the walls a visual effect of lightness and delicacy.

***Elegante finitura  
decorativa perlescente***

Moderna finitura traslucida,  
altamente resistente e  
lavabile, per decorare ogni  
tipologia di ambiente con  
stile e delicatezza. Una  
finitura con deliziosi riflessi  
metallici ed un effetto  
cangiante che cambiano tono  
al variare della luce.

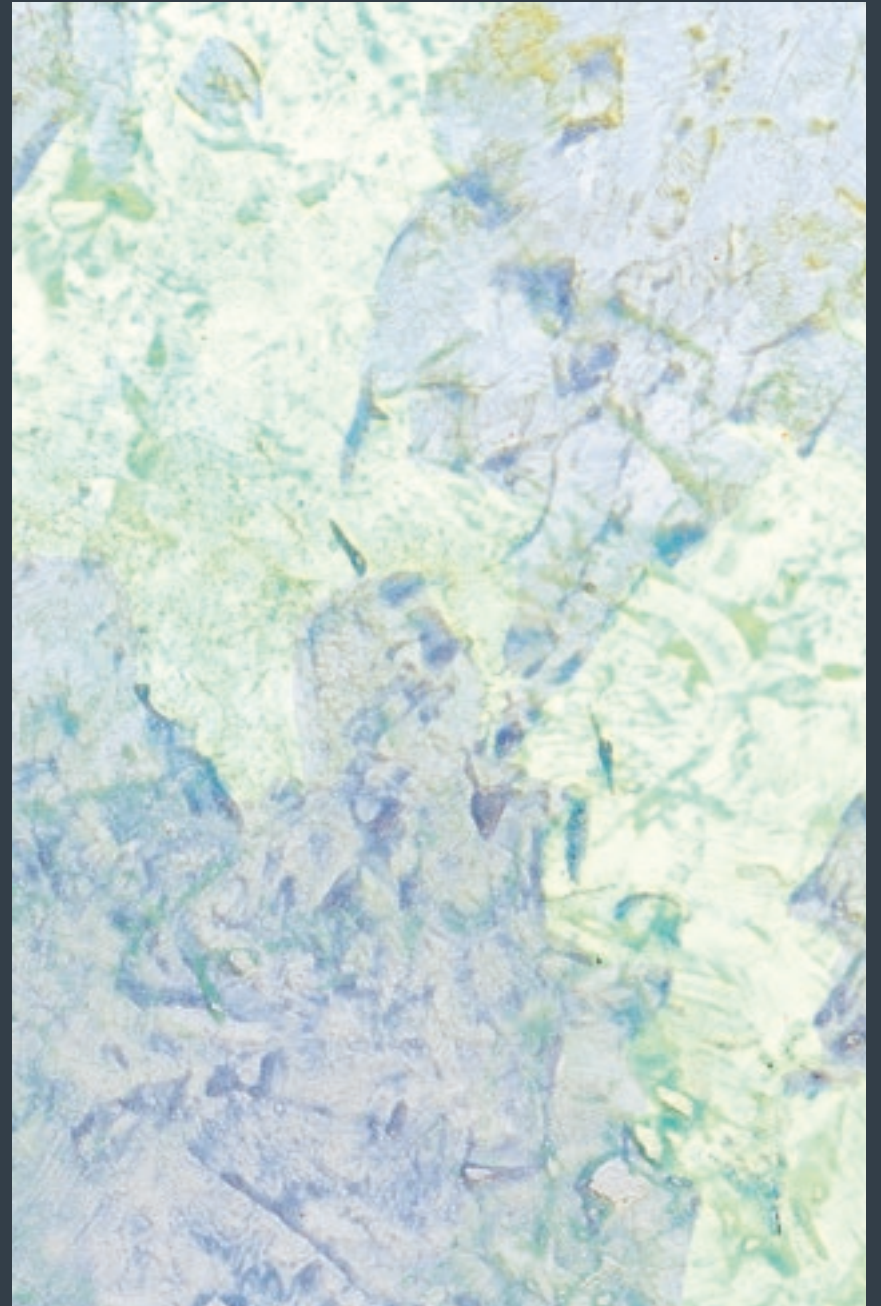

***Pearly and translucent  
decorative effect finish***

Modern translucent finish,  
highly durable and washable,  
ideal for decorating walls in  
every type of environment  
with style and charm. A  
finish with delightful metallic  
reflexes and a pearly effect  
that can change tone when  
the reflection of light changes

***"Carezze di sabbia"  
con effetto tono su tono***

Finitura decorativa opaca a base di sabbia di quarzo naturale e piacevolmente ruvida al tatto. Ideale per conferire agli ambienti, sia classici che moderni, il fascino rustico delle superfici di un tempo.

***"Sand caresses"  
Fine sand effect  
textured designer paint***

Decorative finish based on natural quartz sand with an absolute matt appearance and a pleasant fine-textured touch. Ideal for giving walls a harmonic classic, modern or rustic charm like surfaces of times past.

*Professional, polished  
plaster decorative finish  
- mirror-like, natural  
waxed effect*

A Venetian Stucco of unparalleled splendor worthy of exquisite antique decors. High gloss or matt designer decorations that find a new expression in VENEXIAN FAUX, the easy to apply, decorative finish with an elegant self-waxing effect. VENEXIAN FAUX allows you to fully express your creativeness, designing the natural veins and using the typical colors of true marble, an essential timeless material used since antiquity. It will give a refined touch of welcoming elegance to any setting whether modern or classic. The natural reflective beauty of VENEXIAN FAUX will outlive any fashion with its inimitable style.

*Decoro professionale  
ad effetto stucco  
veneziano - effetto  
lucido autocerante*

L'eterno splendore degli antichi decori veneziani in stucco. Decori lucidi o opachi, trovano una nuova espressione in VENEXIAN FAUX, la finitura decorativa con un elegante effetto autocerante. Ma è nel ricreare le venature e le sfumature di colore tipiche del marmo, un materiale utilizzato sin dall'antichità ed un must senza tempo, che VENEXIAN FAUX esprime la capacità unica di sedurre con un gioco di specchi e riflessi che rendono ogni ambiente raffinato ed accogliente. Con VENEXIAN FAUX non serve aggiungere altro perché la sua naturale bellezza va oltre le mode con uno stile inconfondibile e tutto da vivere.

Tutte le tinte e gli effetti colore di questo catalogo sono riprodotti con i limiti di stampa CMYK ed hanno valore puramente indicativo. Visionare sempre i campioni dal vero per la scelta definitiva dei colori.  
 All the colors and effects shown on this catalogue have been reproduced within the limits of CMYK printing technology and are shown to give you an indication only. To select the final color to be used, always refer to a true product sample.

***Finitura decorativa  
alla calce effetto  
stucco veneziano***

Raffinata finitura murale per interni, a base di grassello di calce stagionato, che consente di ottenere un effetto stucco veneziano lucido. Particolarmente indicato per ricreare ambientazioni dal "sapore" antico, può anche essere utilizzato in ambienti contemporanei e di design generando meravigliosi contrasti tra pareti ed arredamento.

***Lime based, polished  
plaster decorative finish***

Refined decorative wall finish based on seasoned slaked lime that produces a polished Venetian plaster effect. This prime-quality finish is ideally suited for recreating settings with an antique "flavor" and it can also be used to enhance contemporary design environments, creating wonderful contrasts between walls and interior decoration.

***Finitura alla calce  
effetto stucco  
veneziano puntinato***

Tradizionale finitura a base di grassello di calce ad effetto stucco veneziano anticato. Leggermente materica al tatto è indicata per restituire alle superfici il fascino e la straordinaria bellezza di un'antica decorazione che è espressione della storia e del gusto italiano.

***Lime based, spotted  
polished plaster  
decorative finish***

Traditional troweled finish based on slaked lime with an antique Venetian plaster effect. It has a slight hint of texture to touch and is indicated to restore the charm and extraordinary beauty of an ancient decoration that is an expression of Italian history and taste.

# Travertinus

## *Rivestimento alla calce che riproduce l'effetto del caratteristico marmo travertino*

Rivestimento a base di calce spenta che riproduce l'effetto e trasmette le sensazioni dello storico marmo travertino utilizzato secoli fa nelle ville e palazzi romani. È fornito in polvere da miscelare con acqua.

## *Lime based coating to reproduce the effect of real travertine marble*

Slaked lime based mineral coating that reproduces the amazing effect and conveys the emotions of the historic travertine marble used centuries ago in Roman villas and palaces. It is supplied in powder form to be mixed with water before use.

# ARENARYA

## EFFETTI MATERICI PER SPAZI SENZA TEMPO

Riprodurre le superfici naturali segnate dal tempo preservandone l'aspetto visivo, tattile e sensoriale.

Questo è l'obiettivo raggiunto da ADICOLOR con la nuova linea di finiture materiche **ARENARYA**.

La natura ed i suoi elementi sono il filo conduttore di questa linea che rappresenta la massima espressione della creatività e del design italiano e consente di realizzare pareti uniche e di prestigio, sia in ambienti dal "sapore" vintage che "dall'aria" moderna e contemporanea.

L'estetica delle decorazioni si fonde con la qualità dei prodotti ed unitamente ad una vasta gamma di possibili colorazioni, creano un connubio utilizzabile in qualsiasi ambito di applicazione: da quello architettonico o di interior design alle pareti di casa propria.

Per la massima protezione delle finiture materiche ARENARYA e di tutti gli altri prodotti in gamma, ADICOLOR ha introdotto una linea di **RESINE** poliuretaniche ed epossidiche di altissimo livello e mono/bicomponenti. L'applicazione della resina trasparente (lucida, satinata od opaca) a protezione dell'effetto, rende il prodotto impermeabile e resistente al graffio permettendo di poter decorare anche interni di box doccia, pareti di vasche da bagno o della cucina, senza alcun problema o controindicazione.

ARENARYA è la linea concepita per ricreare ambienti dall'atmosfera calda, accogliente e trasmettere sensazioni piene di fascino e di semplicità.

## TACTILE TEXTURES FOR TIMELESS SPACES

*Capturing the essence of natural surfaces marked and worn by time, preserving their visual, tactile and sensory appearance.*

*This is the goal that we have reached in ADICOLOR with the new line of **ARENARYA** tactile textured finishes.*

*Nature and its elements are the inspiration that led us to the creation of this line, which represents the utmost expression of Italian creativity and design and allows you to create unique and prestigious effects that bridge design styles going from an old-world vintage taste to those with a modern, contemporary flavor.*

*The beauty of the decorations blends with the quality of the products then are topped with an array possible colors, to create a combination that can be used in any field of application: from architectural or interior design projects to the walls of your own home.*

*For the maximum protection of the ARENARYA finishes, as well as for any other of our range of products, ADICOLOR has introduced a series of prime quality, one-pack and two-pack, polyurethane and epoxy **RESINS**. The application of a transparent resin (available in various sheens: High gloss, Satin or Matte) will provide an extreme protection, making the finishes totally waterproof and scratch-proof, allowing you to use even inside shower boxes, walls around bathtubs and in kitchens without any problems.*

*ARENARYA is designed to create a warm, welcoming atmosphere and transmit the feeling of natural charm and simplicity.*

## MODERNA FINITURA AD EFFETTO CEMENTO

Finitura ad effetto cemento estremamente affascinante e moderna che permette di creare atmosfere "urban style" in linea con le attuali tendenze dell'arredamento di design. Adatto ad ogni tipologia di ambiente, è un prodotto di semplicissima applicazione utilizzabile sia all'interno che all'esterno.

## MODERN CEMENT EFFECT DECORATIVE FINISH

*Easykem is a modern architectural, concrete-effect finish that blends perfectly with the current trend in interior design. It is extremely easy to apply, suitable for both interiors and exteriors and creates a simple but highly attractive effect that offers a touch of art design, ideal for any kind of environment.*

# Miniere

## EFFETTI DECORATIVI MINERALI E METALLICI

MINIERE è la collezione Adicolor di effetti decorativi in cui materia e minerale si coniugano dando vita ad un'estetica raffinata e contemporanea che rimane inalterata dall'usura del tempo ed è immune da qualsiasi moda o tendenza. Il risultato è un rigoroso equilibrio fra la nobiltà dei metalli estratti e la forza della pietra che trasportano la natura e le sue imperfezioni all'interno di ogni ambiente di casa.

## *MINERAL AND METALLIC DECORATIVE EFFECTS*

*MINIERE is Adicolor's collection of decorative effects in which materic and mineral textures combine to create a refined and contemporary finish of beauty that will remain unaltered by the wear of time and stay immune to fashion or trend. The result is a rigorous balance between the nobility of extracted metals and the strength of stone to bring a touch of nature's natural imperfections within every home environment.*

Finitura protettiva trasparente per interni ed esterni ad effetto satinato, all'acqua e non ingiallente. È particolarmente indicata per i prodotti decorativi, le idropitture ed i plastici utilizzati in ambienti di grande traffico, lasciando inalterato l'effetto primitivo.

#### **Waterborne, clear protective satin finish**

A hard wearing, waterborne, non-yellowing, clear glazing top coat for interior or exterior use. Ideal to give a satin effect and extra protection to Sogni Line decorative finishes, and other paints and coatings used in high traffic areas, without altering the original product appearance.

1 - 4 litri

### Fondo Universale

#### **Fondo pigmentato di ancoraggio**

Fondo pigmentato ed anticivolo appositamente formulato per la successiva applicazione delle finiture decorative. L'utilizzo di questo prodotto permette di ottenere il miglior risultato e garantisce la massima durata nel tempo.

#### **Pigmented gripping basecoat**

Pigmented, gripping basecoat specifically formulated for the application of the Sogni Line decorative finishes. This basecoat is designed to guarantee the ideal results with maximum durability of the finishing product.

2 - 4 - 10 litri

\*Information on the level of emissions of volatile substances into indoor air, with a risk of toxicity through inhalation, on a scale ranging from class A+ (very mild emissions) to class C (strong emissions).

## GS5

### *Idropittura lavabile specifica per gesso e cartongesso*

Idropittura bianca, lavabile e traspirante, espressamente formulata per applicazioni su pareti a gesso e cartongesso. È una pittura molto opaca che garantisce un effetto mascherante, grande resa, ottima dilatazione e copertura. Non necessita di fissativo salvo per quei casi dove sia evidente lo spolveramento del fondo.

### *Wash resistant emulsion paint specific for Gypsum plaster and plasterboards*

A washable, high matt, white emulsion paint specifically designed for application on Gypsum plasters and plasterboards. It minimizes surface imperfections with high coverage, good flow and extra hide. GS5 does not require a primer unless the substrate is in a highly chalky condition.

## I-Conica

### Quarzo

### Idropittura silossanica per esterno

Idropittura opaca a base di feldspato e resine acriliche che conferiscono al prodotto eccellenti caratteristiche di lavabilità ma, allo stesso tempo, wanche traspirabilità.

### Quartz based, waterborne paint for exteriors

Matt, waterborne paint based on feldspar and acrylic resins which give the product its excellent characteristics of washability but, at the same time, high water vapor permeability.

4 - 14 litri

## Adipiù

### Idropittura acrilica traspirante e lavabile super coprente

Idropittura acrilica traspirante e lavabile, dall'aspetto opaco, che ha come caratteristica primaria l'altissimo potere coprente. Può essere considerato un prodotto mono-mano.

### Wash resistant, waterborne, acrylic based emulsion paint, with super hide

Acrylic based, waterborne, matt, emulsion paint. It is permeable to water vapor and wash resistant with its very high opacity being the key feature. It can be considered a one coat paint.

## Adiquarz S

### *Idropittura per esterni*

Idropittura economica a base di feldspato dotata di buona copertura e resistenza, dall'aspetto opaco, indicata per la pitturazione di superfici esterne. Il feldspato è un minerale che non contiene la frazione fine respirabile di silice e che è quindi considerato sicuro e non dannoso per la salute.

### *Waterborne paint for exteriors*

Matt, waterborne feldspar-based paint that features good opacity and resistance, studied for cost-efficient painting in exteriors. Feldspar is a mineral that does not contain the fine respirable silica fraction and is therefore considered safe and not harmful to health.

5 - 14 litri

## Adiquarz R

### *Pittura al quarzo per esterni*

Idropittura lavabile per esterno con farina di quarzo selezionato. Ha un'alta resistenza agli agenti atmosferici, ottimo potere riempitivo e consente l'esecuzione di lavori durevoli nel tempo in modo economico.

### *Quartz based paint for exteriors*

Waterborne, quartz-flour based, matt paint specific for exterior use. It has a high washability, good resistance to atmospheric agents, excellent filling power and allows long-lasting jobs to be carried out economically.

1 - 5 - 14 litri

## Adiquarz

### *Pittura al quarzo di alta qualità per esterni*

Idropittura lavabile per esterno acrilica con farina di quarzo selezionata. La sua particolare formulazione consente un'altissima resistenza agli agenti atmosferici e una lunga durata nel tempo

### *Premium quality quartz paint for exteriors*

A premium quality, waterborne acrylic based, matt paint with selected quartz fillers, specific for exterior use. Designed to give outstanding performance with an extremely high resistance to weathering and exceptional durability.

1 - 5 - 14 litri

## Adiquarz

### Elastomerico

### *Pittura al quarzo elastomerica di alta qualità per esterni*

Idropittura al quarzo a base di resine stirolo acriliche termoplastiche che consentono alla pittura di adattarsi ai movimenti del supporto preservando il fondo da eventuali microcavillature.

### *Premium quality elastomeric quartz paint for exteriors*

Elastomeric matt paint, based on thermoplastic styrene-acrylic resins and quartz-flour. The product is designed to accommodate slight movements of the substrate thus avoiding the possibility of micro-cracking forming on the coated surface.

14 litri

## Acrlsilox

### *Pittura acryl-silossanica, al quarzo di alta qualità per esterni*

Idropittura per esterni composta dall'unione di resine acriliche e silossaniche. L'unione di queste due resine conferisce altissima resistenza agli agenti atmosferici, lunga durata nel tempo ed alta lavabilità. Inoltre la presenza di farine di quarzo apporta un ottimo potere riempitivo.

### *Premium quality, acryl-siloxane and quartz based paint for exteriors*

Waterborne, matt, exterior paint composed of a combination of acrylic and siloxane resins. The combination of these two resins gives the paint an extremely high resistance to atmospheric agents, long durability and high wash-resistance. Furthermore, the presence of quartz-flours provides an excellent filling power.

1 - 5 - 14 litri

## L'Antiumido

### *Crea una barriera contro umidità*

È una pittura ad acqua ANTIUMIDO che crea una barriera altamente resistente all'umidità di risalita sui muri interni o esterni di abitazioni, cantine, garage. Sovra verniciabile con pitture, smalti ad acqua, finiture decorative etc.

### *Anti-humidity paint*

ANTI-HUMIDITY, waterborne paint that creates a highly resistant barrier against rising damp on both interior or exterior walls. It is ideal for homes, basements, cellars, garages and it can also be coated with other paints, waterborne enamels or decorative finishes.

## Adifix

### con antimuffa

### *Isolante fissativo antimuffa igienizzante*

Adifix Antimuffa è un valido prodotto per la preparazione di muri interni o esterni sia a gesso sia ad intonaco. Il suo effetto bivalente consente di ottenere, con una sola applicazione, sia un'efficace uniformazione e consolidamento del supporto, sia un effetto battericida e sanificante.

### *Primer with anti-mold and sanitizing effect*

Adifix with Anti-mold is a specialized waterborne primer for the surface treatment of interior or exterior Gypsum or plastered walls. With a single application it enables you to equalize and consolidate the substrate in addition to gaining a valid bactericidal protection and sanitizing effect.

## Classe A

### con antimuffa

### *Idropittura acrilica lavabile e traspirante resistente alle muffe*

Idropittura acrilica lavabile e traspirante, opaca e bianchissima, in grado di proteggere il film secco dalla formazione di muffe. Garantisce lavori rapidi grazie all'elevato potere coprente.

### *Washable, acrylic waterborne paint resistant to molds*

Washable, acrylic waterborne, matt paint, permeable to water vapor, with extra whiteness and is able to protect the dry film from the formation of mold. It guarantees quick work thanks to its high opacity.

4 - 14 litri

## Saniflex

### *Soluzione lavante per muffe*

Soluzione lavante per rimuovere la muffa dalle superfici prima dell'applicazione della pittura di finitura.

### *Cleaning solution to remove mold*

Washing solution to remove mold from surfaces before the application of the finishing paint.

0,75 litri

\*Informazioni sul livello di emissioni di sostanze volatili nell'aria interna, con rischio di tossicità per inalazione, su una scala che va dalla classe A+ (emissioni molto lievi) alla classe C (forti emissioni).

\*Information on the level of emissions of volatile substances into indoor air, with a risk of toxicity through inhalation, on a scale ranging from class A+ (very mild emissions) to class C (strong emissions).

## Monofix con antimuffa

### *Idropittura di fondo fissante e resistente alle muffe*

Regolatore di fondo universale pigmentato per la preparazione di superfici prima dell'applicazione di una pittura. È utilizzato per uniformare l'assorbimento del fondo, per migliorare l'adesione e la resistenza della finitura oltre a facilitarne l'applicazione, aiutando a garantire una migliore copertura. Resiste alla proliferazione di muffe. Certificato UNI N 15457 - Prodotto resistente alla proliferazione di muffe.

### *White, waterborne, sealer, resistant to molds*

Universal pigmented sealer for the preparation of surfaces before applying a finishing paint. It is used to uniform the absorption of the substrate, to improve the adhesion and the resistance of the finish. It will also facilitate the application of the finish and will help to give a higher opacity. The sealer resists to the proliferation of mold growth. Certificate UNI N. 15457 - Product resistant to the proliferation of molds.

## Top San TR

### *Idropittura traspirante resistente alle muffe*

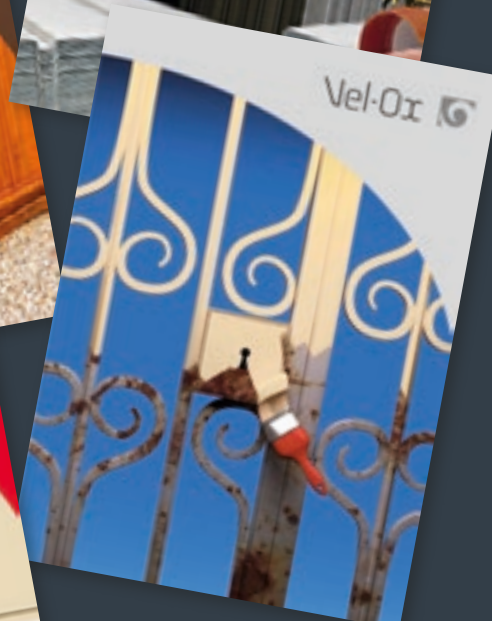

Idropittura traspirante opaca in grado di proteggere il film secco dalla formazione di muffe. È particolarmente indicata per ambienti dove è possibile la formazione di condensa. Inoltre, è altamente coprente, riempitiva e bianchissima. Certificato UNI N 15457 - Prodotto resistente alla proliferazione di muffe, grazie alla presenza di additivi specifici e ioni d'argento, microparticelle che, in modo del tutto naturale, non solo contrastano i batteri dannosi per la salute, ma ne inibiscono la riproduzione svolgendo un'azione preventiva di lunga durata.

### *Waterborne, mold resistant, emulsion paint*

Matt, waterborne, water-vapor permeable, interior emulsion paint that give protection from the formation of mold to the dry film of paint. It is particularly suitable for environments subject to condensation. In addition, the product features high opacity, good filling power and extra whiteness. Certificate UNI N 15457- Product resistant to the proliferation of molds. Thanks to the presence of specific additives and silver ions, microparticles that, in a completely natural way, not only counteract germs and bacteria that are harmful to health, but inhibit their reproduction by carrying out a preventive action of long duration.

4 - 14 litri

\*Informazioni sul livello di emissioni di sostanze volatili nell'aria interna, con rischio di tossicità per inalazione, su una scala che va dalla classe A+ (emissioni molto lievi) alla classe C (forti emissioni).  
\*Information on the level of emissions of volatile substances into indoor air, with a risk of toxicity through inhalation, on a scale ranging from class A+ (very mild emissions) to class C (strong emissions).

## Adimin

### *Fondo antiruggine rosso o arancio*

Fondo antiruggine sintetico a base di ossidi di ferro e fosfato di zinco. Protegge i manufatti in ferro e facilita l'ancoraggio della successiva finitura. È dotato di rapida essiccazione ed è un buon inibitore della corrosione.

### *Antirust metal-primer, red or orange*

Synthetic anti-rust primer based on iron oxides and zinc phosphate. It protects the iron and facilitates the anchoring of the subsequent finish. It is fast drying and a good corrosion inhibitor.properties.

0,5 - 2,5 litri

## Antirust

### *Antiruggine sintetica grigia*

Fondo antiruggine sintetico grigio a base di fosfato di zinco. È dotato di essiccazione rapida e buona inibizione della corrosione.

### *Grey, antirust metal primer*

A grey, antirust metal primer based on zinc-phosphate. It is a high performance, fast drying product with optimum rust-inhibiting properties.

0,5 - 2,5 litri

## Fund Flex

### *Primer per fondi difficili*

Vernice di fondo per l'aggrappaggio su lamiera zincate e PVC.

### *Prime coat for difficult substrates*

A special prime coat to promote adhesion on galvanized or zinc coated surfaces and PVC.

0,5 litri

## Adipac

### *Vernice di fondo per legno e muri*

Vernice di fondo vellutata ideale per lavori su legno e muri. Predispone ottimamente i materiali pronti per la finitura prescelta.

### *Anchoring base coat for wood and walls*

High matt, solvent borne, filling and anchoring base coat, ideal for the preparation of woodwork and walls to be painted with enamel paints.

0,5 - 2,5 litri

## Adipac H2O

### *Fondo all'acqua riempitivo per legno e muri*

Vernice all'acqua di fondo, riempitiva, bianca e opaca, per la preparazione di legno e muri. A base di specifiche resine acriliche permette di rendere le superfici idonee all'applicazione della finitura finale.

### *Waterborne filling basecoat for wood and walls*

White, high-opacity, waterborne, filling basecoat for wood and walls. The product is based on specific acrylic resins and is ideal to prepare surfaces for application of the final finishing paint.

0,5 - 2,5 litri

## Adismalt Brillante

### *Smalto sintetico brillante per interni esterni*

Smalto sintetico brillante di qualità superiore per finiture all'interno e all'esterno. Dotato di ottima pennellabilità, distensione e copertura, opponendosi alla formazione di ruggine garantisce lunga durata e resistenza nel tempo all'ingiallimento.

### *Gloss enamel paint for interiors and exteriors*

Prime quality, high gloss enamel paint for interiors and exteriors, featuring excellent hide, brushability and flow. It provides a hard wearing, durable finish with lasting resistance to the formation of rust, to weathering and to yellowing.

0,75 - 2,5 litri

## Adismalt Opaco

### *Smalto sintetico opaco per interni esterni*

Smalto sintetico di qualità superiore per finiture di aspetto opaco all'interno e all'esterno. Dotato di ottima pennellabilità, distensione e copertura, opponendosi alla formazione di ruggine garantisce lunga durata e resistenza nel tempo all'ingiallimento.

### *Matt enamel paint for interiors and exteriors*

Prime quality enamel paint for interiors and exteriors in Matt finish, featuring excellent hide, brushability and flow. It provides a hard wearing, durable finish with lasting resistance to the formation of rust, to weathering and to yellowing.

0,75 - 2,5 litri

## Adismalt Satinato

### *Smalto sintetico satinato per interni esterni*

Smalto sintetico di qualità superiore per finiture di aspetto satinato all'interno e all'esterno. Dotato di ottima pennellabilità, distensione e copertura, opponendosi alla formazione di ruggine garantisce lunga durata e resistenza nel tempo all'ingiallimento.

### *Satin enamel paint for interiors and exteriors*

Prime quality enamel paint for interiors and exteriors in Satin finish, featuring excellent hide, brushability and flow. It provides a hard wearing, durable finish with lasting resistance to the formation of rust, to weathering and to yellowing.

0,75 - 2,5 litri

## Ironflex

### *Smalto decorativo ferromicaceo*

Smalto speciale a finire, ad elevato potere anticorrosivo. Particolare formulazione a base di ossidi di ferro micacei e speciali resine alchidiche. La sua particolare finitura ad effetto ferro battuto anticato garantisce risultati altamente estetici accoppiati a lunga resistenza nel tempo.

### *Decorative micaceous enamel paint*

A special alkyd enamel paint containing specific micaceous iron oxide pigments to give high anti-corrosive protection for interiors and exteriors. The finish provides a prestigious effect of antique wrought iron and features a high and durable mechanical and chemical resistance.

0,75 - 2,5 litri

## Nel-Ox

### *Smalto gel a solvente antiruggine*

Smalto gel con azione antiruggine studiato per essere applicato ad alti spessori senza colature grazie alla sua consistenza viscosa e gelatinosa.

### *Gel-form antirust solvent borne enamel paint*

Gloss finish enamel paint with anti-rust protecting property, designed to be applied in high thicknesses without dripping thanks to its viscous and gelatinous consistency.

0,75 litri

## Mylak

### **Smalto a solvente pronto all'uso con potere antiruggine**

Smalto sintetico dotato di buona pennellabilità, distensione e copertura. Grazie alla sua formulazione esercita potere antiruggine sulle superfici, garantisce lunga durata nel tempo e resistenza all'ingiallimento.

### **Solvent based, ready to use enamel paint with antirust properties**

Solvent-borne synthetic enamel paint that features good brushability, flow and coverage. Thanks to its specific formulation, the product gives the surface an anti-rust effect, guarantees long life duration and resistance to yellowing.

## Zinkoflex

### **Smalto sintetico per supporti difficili**

Smalto sintetico satinato di alta qualità per la protezione e la finitura di supporti difficili. Assicura ancoraggio e resistenza nel tempo. Non necessita di primer per la preparazione del fondo.

### **Synthetic enamel paint for difficult supports**

Prime quality solvent borne enamel paint for the protection and finishing of difficult supports. The product features excellent adhesion with good resistance of the finish over time and does not require a primer for the surface preparation.

0,75 - 2,5 litri

## Thermoplus

### **Smalto acrilico ad acqua per termosifoni**

Smalto acrilico ad acqua di aspetto lucido o satinato specificatamente formulato per termosifoni e cassonetti. Ottimo in quanto garantisce un effetto antiruggine con una superiore resistenza all'ingiallimento. Comoda e facile da applicare senza fastidiosi odori di solvente.

### **Waterborne enamel paint specific for radiators**

Acrylic enamel paint specifically designed for use on radiators and trim. Available in gloss and satin types. It provides a hard wearing, durable, non-yellowing finish with anti-rust effect. Easy to apply with the advantage of being solvent-odor free.

0,75 litri

## Smalto all'Acqua

### **Smalto all'acqua**

Smalto all'acqua per interni resistente e durevole, non ingiallisce e non rilascia odori sgradevoli. Ideale per eseguire pitturazioni specifiche in modo conveniente.

### **Waterborne enamel paint**

Waterborne enamel paint for interiors. It provides a hard wearing, durable finish with good resistance to yellowing, without leaving unpleasant odors of solvents. Ideal for cost efficient jobs.

0,75 litri

## Uno Plus

### **Smalto acrilico ad acqua di alta qualità, per interni ed esterni**

Smalto all'acqua di altissima qualità con ottime caratteristiche di adesione, resistenza e durevolezza. Non ingiallisce e non rilascia odori persistenti.

### **Prime quality waterborne acrylic enamel paint for interiors and exteriors**

Prime quality, waterborne enamel paint that provides a high performance, hard wearing, durable finish with lasting resistance to yellowing and does not release persistent odors of solvents.

ADICOLOR PER L'AMBIENTE  
EMISSIONI NELL'ARIA INTERNA\*  
ADICOLOR FOR ENVIRONMENT  
INDOOR AIR EMISSIONS\*

0,75 - 2,5 - 14 litri

\*Informazioni sul livello di emissioni di sostanze volatili nell'aria interna, con rischio di tossicità per inalazione, su una scala che va dalla classe A+ (emissioni molto lievi) alla classe C (forti emissioni).

\*Information on the level of emissions of volatile substances into indoor air, with a risk of toxicity through inhalation, on a scale ranging from class A+ (very mild emissions) to class C (strong emissions).

## Impregnante a solvente

### *Impregnante protettivo per legno*

Impregnante alchidico che garantisce una protezione di lunga durata. Grazie all'alta penetrazione nel legno evita il pericolo di sfogliamenti.

### *Solvent-borne penetrating wood stain*

Protective penetrating wood stain, based on alkyd resins. The product will give the wood long-lasting protection. The high penetrating power will avoid the danger of flaking.

0,75 - 2,5 litri

## Impregnante a Solvente cerato

### *Impregnante cerato e protettivo per legno*

Impregnante incolore o tinteggiato a base di pigmenti trasparenti specifici e resine alchidiche speciali ad effetto fungicida ed antitarlo. L'alta penetrazione evita il pericolo di sfogliamenti. Garantisce un trattamento protettivo di lunga durata per interni ed esterni con ottima repellenza all'umidità, lasciando un gradevole effetto "a cera".

### *High penetrating, waxed wood stain*

Highly penetrating waxed wood stain based on alkyd resins and specific transparent pigments to decorate and protect wood. It has fungicide and woodworm treatment properties with good water repellence and a pleasant waxed appearance. The deep penetrating power will avoid film peeling. Available in clear or colored type.

0,75 - 2,5 litri

## Flatting a Solvente

### *Vernice flatting oleo-sintetica trasparente incolore*

Vernice flatting oleo-sintetica brillante e trasparente per la decorazione e protezione del legno all'interno o all'esterno. Garantisce finiture dotate di buona elasticità e resistenza, brillanti o satinata.

### *Clear finishing, oleosynthetic, wood varnish*

Finishing, solvent borne, gloss varnish based on oleosynthetic resins for the decoration and protection of wood and timber for interiors and exteriors. It forms a hard yet flexible finish with high resistances.

0,75 - 2,5 litri

## Impregnante all'Acqua

### *Impregnante all'acqua*

Impregnante all'acqua che protegge il legno dall'attacco degli agenti atmosferici. Penetrando in profondità permette al legno di conservarsi sano nel tempo, evitando gli sfogliamenti e consentendone la naturale traspirazione.

### *Waterborne penetrating wood stain*

Waterborne impregnating wood stain that protects the wood from the attack of atmospheric agents. The product penetrates deeply and allows the wood to remain healthy over time, avoiding flaking and allowing its natural breathing characteristics.

0,75 - 2,5 litri

## Impregnante all'Acqua cerato

### *Impregnante all'acqua cerato*

Impregnante all'acqua ad effetto cerato che protegge il legno dall'attacco degli agenti atmosferici. Penetrando in profondità permette al legno di conservarsi sano nel tempo, evitando gli sfogliamenti e consentendone la naturale traspirazione.

### *Waterborne waxed wood stain*

Waterborne impregnating wood stain, with a waxed effect, that protects the wood from the attack of atmospheric agents. The product penetrates deeply and allows the wood to remain healthy over time, avoiding flaking and allowing its natural breathing characteristics.

0,75 - 2,5 litri

## Flatting all'Acqua

### *Flatting all'acqua*

Vernice flatting trasparente all'acqua. Crea una pellicola lucida che protegge il legno dall'attacco degli agenti atmosferici garantendo finiture dotate di buona elasticità e resistenza.

### *Waterborne wood varnish*

Waterborne transparent wood varnish. The product creates a gloss film that protects the wood from the attack of atmospheric agents, ensuring finishes with good elasticity and resistance.

0,75 - 2,5 litri

## Adistuc stucco in polvere

### Stucco in polvere pronto all'uso

Stucco in polvere a base di gesso, carbonati duri e resine cellulosiche. Ideale per lisciature interne e incollaggio di particolari in gesso. Indurimento rapido e ottima carteggiabilità.

### Putty in powder

White putty in powder form based on Gypsum, hard carbonates and cellulose resins. Ideally suited for leveling interior walls and for the adhesion of Gypsum plaster ornaments. It dries rapidly and is easily sanded.

## Adistuc stucco ultraleggero

### Stucco ultraleggero

Questo prodotto è ideato per riempire fessure e buchi di ogni misura in una sola applicazione. Eccellente adesione, facilissima applicazione, non ritira e non crepa. Asciuga immediatamente e può essere sovraverniciato subito con tutti i tipi di idropitture all'acqua. Non necessita carteggiatura. Formulato con microsferi di vetro 3M. Per interni ed esterni. Ideale per cemento, pareti, cartongesso, mattoni, gesso, pareti già verniciate e legno.

### Lightweight putty

This product is made to fill cracks and holes of any size in a single application. Excellent adhesion without giving signs of shrinking or cracking. No sanding required. It dries immediately enabling to paint over within a few minutes from application with waterborne paints. Formulated with 3M Glass bubbles for interior and exterior use. Ideal for concrete, cement, plasterboards, brick, gypsum, old painted walls and for wood.

## Adistuc stucco in pasta

### Stucco in pasta

Stucco ultra-bianco in pasta con un ottimo ancoraggio, pronto all'uso, facile da applicare e da carteggiare. Ideale per stuccare crepe e fessure fino a 2-3 mm ma anche per rasare pareti.

### Putty in paste form

Ready to use, ultra-white putty and filler, easy to apply and to sand. Excellent adhesion. Ideal both for filling holes and cracks up to 2-3 mm and for smoothing wall surfaces.

ADICOLOR PER L'AMBIENTE  
EMISSIONI NELL'ARIA INTERNA\*  
ADICOLOR FOR ENVIRONMENT  
INDOOR AIR EMISSIONS\*

0,25 - 0,50 - 1 - 5 - 20 kg

## Epoflex

### Smalto epossidico bicomponente satinato all'acqua

Smalto epossidico bicomponente ad effetto satinato in soluzione acquosa per interno studiato per garantire le migliori performances per resistenza e durata. Particolarmente indicato per la verniciatura di pavimenti industriali, garage, scuole, palestre, vasche in cemento etc. Massima resistenza anche in ambienti a grande traffico di mezzi di movimentazione.

### Waterborne, 2-pack, mid-sheen epoxy enamel paint

Waterborne, two-pack, mid-sheen epoxy enamel paint providing a tough, extremely hard wearing and highly resistant surface. Meant for coating interior floors of warehouses, workshops, garages, schools, etc. even on concrete water tanks. Ideal for internal use in areas subject to foot and rubber-tired vehicle traffic with excellent resistance.

4 (+2) litri

## Adifix

### Fissativo isolante universale per interni ed esterni

Fissativo isolante concentrato all'acqua. Il fondo così preparato garantirà la miglior stesura della pittura, il consolidamento di vecchie applicazioni o di fondi nuovi ed una migliore uniformità di assorbimento.

### Waterborne concentrated primer for interiors and exteriors

Universal waterborne, alkali-resistant, sealing primer that binds loose particles of the substrate surface and uniform differences in absorbency, improving the adhesion and the resistance of the finishing coat.

ADICOLOR PER L'AMBIENTE  
EMISSIONI NELL'ARIA INTERNA\*  
ADICOLOR FOR ENVIRONMENT  
INDOOR AIR EMISSIONS\*

1 - 4 litri

\*Informazioni sul livello di emissioni di sostanze volatili nell'aria interna, con rischio di tossicità per inalazione, su una scala che va dalla classe A+ (emissioni molto lievi) alla classe C (forti emissioni).

\*Information on the level of emissions of volatile substances into indoor air, with a risk of toxicity through inhalation, on a scale ranging from class A+ (very mild emissions) to class C (strong emissions).

## Rainbow

### *Impregnante protettivo per legno*

Impregnante alchidico che garantisce una protezione di lunga durata. Grazie all'alta penetrazione nel legno evita il pericolo di sfogliamenti.

### *Solvent-borne penetrating wood stain*

Protective penetrating wood stain, based on alkyd resins. The product will give the wood long-lasting protection. The high penetrating power will avoid the danger of flaking.

0,05 - 0,25 litri

## L'Antimacchia

### *Pittura acrilica all'acqua, inodore e antimacchia*

Pittura all'acqua formulata con resine speciali, inodore, antimacchia e altamente performante. Specificatamente formulata per coprire ed isolare le macchie di umido, nicotina e fumo. Dotata di ottima copertura può essere applicata su cartongesso, intonaco e mattoni.

### *Waterborne acrylic paint, odorless and stain-resistant*

High performance, waterborne acrylic paint for interiors, odorless and stain-resistant. The product is specifically formulated to hide and isolate stains caused by dampness, nicotine and smoke. It features an excellent covering power and can be applied on plasterboards, cement plasters and bricks.

0,75 - 2,5 litri

## Uniker

### *Smalto all'acqua monocomponente per ceramiche a pavimento o a rivestimento*

Smalto all'acqua ad effetto semilucido per pavimenti o rivestimenti con ottime caratteristiche di resistenza all'usura e con notevole adesione ai suoi supporti più difficili come, ad esempio, la ceramica. Ottimo anche su supporti in cemento o in legno. È anche moderatamente carrabile con mezzi leggeri.

### *Waterborne, single component, enamel paint ideal for floor and wall ceramics*

Waterborne, semi-gloss effect, enamel paint for floors or walls with excellent characteristics of wear-resistance and high adhesion to difficult substrates such as, for example, ceramics. Excellent also for use on concrete or wood. The product is also moderately resistant to the passage of light vehicles.

0,75 - 2,5 litri

## LINEA DRYSTIC

### Guaina Liquida

#### *Guaina liquida impermeabilizzante*

Guaina liquida impermeabilizzante, monocomponente, elastica e calpestabile per superfici orizzontali e verticali. Formulata con speciali resine elastomeriche, plastificanti e cariche lamellari per ottenere un prodotto elastico, resistente agli agenti atmosferici e di facile applicazione.

#### *Liquid waterproofing sheath*

Single-component, elastic and walkable liquid waterproofing membrane for horizontal and vertical surfaces. Formulated with special elastomeric resins, plasticizers and lamellar fillers to obtain an elastic product, resistant to atmospheric agents and easy application.

0,75 - 4 - 13 kg

## LINEA DRYSTIC

### Pittura Acrilica

#### *Pittura specifica per tetti e terrazzi*

Pittura di finitura a base di resine stirolo acriliche specifiche per l'applicazione su superfici orizzontali e verticali di tetti e terrazzi. La sua particolare formulazione permette di colorare e proteggere aree esposte alle intemperie.

#### *Specific paint for roofs and terraces*

Finishing paint based on acrylic styrene resins specific for application on horizontal and vertical surfaces of roofs and terraces. Its particular formulation allows to color and protect areas exposed to bad weather.

0,75 - 4 - 13 kg

## Le sensazioni del colore

### *Mazzetta Colori Istant COLOUR Professional*

937 splendide tonalità di colore di ultima tendenza per darvi la possibilità di scegliere la "Sensazione del Colore" che più riflette il vostro gusto personale. Uno strumento essenziale di lavoro nel mondo della colorimetria. Tutte le tinte contenute in questa mazzetta sono state realizzate con paste universali Istant COLOUR, V.O.C. FREE, nel rispetto della normativa europea. Decopaint 2007-2010 in materia di rispetto ambientale ed ecologico.

### *Instant COLOUR Professional Fan Deck*

937 splendid updated colors of latest tendency to give you the possibility to select the "Sensation of Color" that most reflects your personal desires and tastes. An essential tool for working with your tinting system. All colors in this fan deck have been produced with the use of Adicolor, VOC FREE, Istant COLOUR Universal Colorants that fully comply with the European Decopaint 2007-2010 environmental and ecological regulations.

## Paste coloranti

### Instant COLOUR

#### *Paste Universali*

Per sistema tintometrico Istant COLOR PROFESSIONAL. Ottimo per produrre tinte difficili anche in esterno.

#### *Universal colorants*

For Istant COLOUR PROFESSIONAL tinting system. - Ideal for producing difficult tones, even for exteriors.

## Mixer

#### *Miscelatori per tintometri*

Comodi e moderni sono indispensabili nella conduzione dei sistemi tintometrici "Istant Colour". Disponibili in due modelli: automatici e semiautomatici.

#### *Mixers for tinting systems*

Practical, modern and easy to use automatic and semiautomatic mixers to be used with the "Istant Colour" professional tinting system.

## Tintoplus

#### *Tintometro manuale*

È un tintometro manuale da 16 canestri di lt.2; validissimo strumento di lavoro nelle realtà in cui il servizio colore non è la priorità del punto vendita o dove si voglia offrire un programma colore con investimento contenuto. (Compreso installazione in Italia e software. Escluso PC.)

#### *Manual dispenser*

Manual pigment dispenser with 16 canisters of 2 liters each. The ideal Dispenser for small points of sale that desire a tinting system with a low-cost investment. (Inclusive of installation in Italy and software. PC not included.)

## Tintorobot

#### *Tintometro automatico*

È un tintometro automatico a 16 canestri da 3 lt. di semplicissima utilizzo e dai costi accessibilissimi per i punti vendita di media dimensione. Offre tutti i vantaggi di una macchina elettronica nello spazio di una manuale avendo un diametro di soli 80 cm. collegabile a spettrofotometro (optional). (Compreso PC installazione in Italia e software)

#### *Automatic dispenser*

A small automatic pigment dispenser with 16 canisters of 3 liters each. The cost-efficient dispenser, ideal for medium size points of sale. Offers the advantage of an electronic machine occupying a space of only 80 cm diameter. Connectable to a spectrophotometer (optional). (Inclusive of PC and installation in Italy)

## Tintoexpress

### *Tintometro simultaneo*

È un tintometro automatico simultaneo composto da 16 canestri (12 da 3 lt più 4 da 5 lt). Ideale per punti vendita che necessitano di alta velocità di erogazione per grossi volumi di lavorazione. Collegabile a spettrofotometro (optional). (Compreso PC installazione in Italia e software)

### *Manual dispenser*

A high performance, simultaneous, automatic pigment dispenser with 16 canisters (12 of 3 liters each plus 4 of 5 liters each). This dispenser is the ideal solution for points of sale that require quicker and higher volume dosing. Connectable to a spectrophotometer (optional). (Inclusive of PC and installation in Italy)

## Colorimetro

### *Colorimetro Adicolor*

Il Colorimetro Adicolor è uno strumento portatile di "lettura" del colore di una qualsiasi superficie che, collegato via Bluetooth® allo smartphone o al tablet, è in grado di individuare in pochi secondi e tra gli oltre 3.500 colori delle mazzette Adicolor, NCS e RAL, la tinta esatta o più vicina a quella desiderata.

### *Adicolor Colorimeter*

The Adicolor Colorimeter is a portable instrument for "reading" the color of any surface. It is connected via Bluetooth® to your smartphone or tablet, and can identify in a few seconds and among the over 3,500 colors of the Adicolor, NCS and RAL fan-decks, the exact color or the closest match to the desired colour being read.

# LINK3018

NEXT MILLENIUM OF SURFACE FINISHES

**LINK3018** è una linea estremamente innovativa di rivestimenti in Resina mono e bicomponente a base acqua e pronta all'uso. Di semplice utilizzo ed ecocompatibile, può essere applicata sia su pavimenti che pareti, in una varietà cromatica e di effetti pressoché infinita.

Grazie agli elevati standard tecnici e di resistenza che la caratterizzano, **LINK3018** è destinata a lasciare un segno indelebile nel tempo che verrà.

***LINK3018** is an extremely innovative line of waterborne, ready-to-use, mono and two-component resin coatings.*

*The system is environmentally and user friendly and can be applied both on floors and walls in an almost infinite variety of colors and effects.*

*Thanks to the advanced technology and to its high standards and resistances, **LINK3018** is destined to leave an indelible mark in times to come.*

## LA RESINA CHE RINNOVA LE SUPERFICI

Una linea estremamente innovativa di rivestimenti in resina a base acquosa, pronti all'uso, mono e bicomponenti.

Il sistema è ecologico e facile da usare e può essere applicato su pavimenti e pareti in una varietà quasi infinita di colori ed effetti.

Grazie alla tecnologia avanzata e ai suoi elevati standard e resistenze **LINK3018** è destinata a lasciare un segno indelebile nei tempi a venire.

- Semplice d'applicare
- A base acqua e pronto all'uso
- Tempi di lavorazione ristretti
- Idoneo per progetti civili e commerciali
- Un solo ciclo per ogni tipo di supporto
- Infiniti colori ed effetti estetici

## INNOVATIVE RESINS TO RENEW SURFACES

*An extremely innovative line of waterborne, ready-to-use, mono and two-component resin coatings.*

*The system is environmentally and user friendly and can be applied both on floors and walls in an almost infinite variety of colors and effects.*

*Thanks to the advanced technology and to its high standards and resistances **LINK3018** is destined to leave an indelible mark in times to come.*

- *Simply to apply*
- *Water based and ready to use*
- *Short working times*
- *Suitable for commercial and civil projects*
- *One cycle for every support*
- *Unlimited colors and effects*

## Il NUOVO sistema di pavimentazione con tecnologia avanzata

- Basato su un **sistema poliacrilico**
- Molto più **facile** e **veloce** da applicare rispetto ad altri prodotti esistenti sul mercato
- Ideale per **creare pavimenti continui** e senza soluzione di continuità o rivestimenti verticali con un impatto **unico, senza tempo** e **contemporaneo**
- Il massetto è **pronto per l'uso** in forma di pasta
- Disponibile in **3 diverse granulometrie** e ciascuna con **1 sola base per la colorazione**
- Questo prodotto può essere colorato a piacere in **800 colori con il sistema tintometricoww**
- **Alta resistenza all'abrasione, impermeabilità** e con un **eccellente potere adesivo**

## The totally NEW, advanced technology FLOORING system

- Based on a **poly-acrylic system**
- Much **easier** and **quicker** to apply respect to other existing products on the market
- Ideal for **creating continuous** and seamless flooring surfaces or vertical coatings with a **unique, timeless** and **contemporary impact**
- The screed is **ready-to-use** in paste form
- Available in **3 different grain sizes** and each with only **1 base for coloring**
- This product that can be colored as pleased in **800 colors with tinting system**
- **High resistance to abrasion, waterproofing** and with **excellent bonding power**

- Può essere applicato su qualsiasi tipo di superficie stabile, comprese piastrelle in ceramica e vecchi pavimenti esistenti
- Può anche essere decorato con effetti e disegni creativi prima dell'applicazione della resina protettiva trasparente
- Progettato per essere completato con vari strati protettivi estremamente performanti disponibili in diversi gradi di lucentezza:

OPACO  
SATINATO  
SEMI-GLOSS  
LUCIDO

NB: Queste RESINE protettive possono essere utilizzate anche su TUTTI i nostri prodotti decorativi e sono adatte sia per i sistemi di pavimentazione che per i rivestimenti murali

#### Certificati di qualità

- Test di resistenza cross-cut
- Resistenza alle variazioni di temperatura
- Resistenza all'abrasione
- Tendenza a trattenere lo sporco
- Resistenza ai graffi
- Resistenza agli agenti chimici
- Resistenza all'esposizione alla luce
- Contatto con prodotti alimentari
- Contatto con alimenti - Akryline - Acqua distillata
- Contatto con alimenti - Akryline - Soluzione acido acetico 3%
- Contatto con alimenti - Akryline - Soluzione etanolo 10%
- Contatto con alimenti - Akryline - Isoottano e etanolo 95%

- *Can be applied onto any type of stable surface, including ceramic tiles and old existing flooring*
- *It can also be decorated with creative effects and designs before the application of the protective transparent resin*
- *Designed to be completed with various extremely high performing, protective top coats available in different grades of sheen:*

MATT  
SATIN  
SEMI-GLOSS  
HIGH GLOSS

*NB: These protective RESINS can also be used over ALL our decorative products and are suitable for both flooring systems and wall coatings*

#### Quality Certificates

- *Cross-cut resistance test*
- *Resistance to temperature changes*
- *Resistance to abrasion*
- *Tendency to retain dirt*
- *Resistance to scratching*
- *Resistance to chemical agents*
- *Resistance to light exposure*
- *Contact with foodstuffs*
- *Contact with foodstuffs - Akryline - Distilled water*
- *Contact with foodstuffs - Akryline - Acetic acid solution 3%*
- *Contact with foodstuffs - Akryline - Ethanol solution at 10%*
- *Contact with foodstuffs - Akryline - Isoottano and ethanol 95%*

## Akryfund

### PRIMER MULTIFUNZIONE

Primer monocomponente da utilizzare con la linea AKRYLINE, per interni ed esterni e dotato di elevata adesione su tutti i supporti. Specifico per AKRYLINE.

### MULTIFUNCTIONAL PRIMER

One-pack primer for use with the AKRYLINE product range. It is used for interiors and exteriors and has high adhesion properties to all substrates. Specific for AKRYLINE.

0,75 - 3 - 12 litri

## Akryline

### RIVESTIMENTO PER PARETI E PAVIMENTI

Prodotto monocomponente in base acquosa pronto all'uso per pavimenti e rivestimenti. Grazie alla sua formulazione a base di resine poli-acriliche e cariche selezionate, garantisce incredibile resistenza all'azione meccanica e di compressione.

### WALL AND FLOOR COATING

Ready-to-use, waterborne product for interiors and exteriors (not directly exposed to atmospheric agents) with a special formulation based on poly-acrylic resins and selected fillers that will guarantee high mechanical and compressive resistance properties. Available in three types of grain sizes: AKRYLINE GG (coarse grain), AKRYLINE GM (medium grain), AKRYLINE GF (fine grain).

5 - 20 litri

## Dekoprim

### PRIMER BICOMPONENTE

Primer bicomponente all'acqua per interni dotato di elevata adesione

### TWO-COMPONENT PRIMER

Two-component primer to be used with the DEKORITE line. It has outstanding adhesion properties on all types of interior surfaces.

4 - 12 litri

## Dekorite

### RIVESTIMENTO PER PARETI E PAVIMENTI

Prodotto bicomponente a base di resine epossidiche in fase acquosa e cariche selezionate. Specificatamente studiato per pavimenti e rivestimenti, garantisce incredibile resistenza all'azione meccanica e di compressione. Disponibile in tre tipi di grane: DEKORITE GG (grana grossa), DEKORITE GM (grana media), DEKORITE GF (grana fine).

### WALL AND FLOOR COATING

Two-component, waterborne product for interiors, to be catalyzed with DEKOHARD before use. It guarantees excellent mechanical and compressive resistance properties thanks to its formulation based on epoxy resins and selected fillers. Available in three types of grain sizes: DEKORITE GG (coarse grain), DEKORITE GM (medium grain), DEKORITE GF (fine grain).

4 - 12 litri

## Kleartop

### FINITURA TRASPARENTE BICOMPONENTE

KLEARTOP è un formulato a base di speciali resine poli-acriliche in dispersione acquosa, per interni ed esterni. Essendo un prodotto catalizzato, offre ottime prestazioni in durezza, resistenza chimica e resistenza all'abrasione. Disponibile in quattro tipi di gloss: KLEARTOP 5 (opaco), KLEARTOP 30 (satinato), KLEARTOP 50 (semilucido), KLEARTOP 100 (lucido). Specifico per AKRYLINE e DEKORITE, ma utilizzabile anche come protettivo per i decorativi della linea ADICOLOR.

### TWO-COMPONENT TRANSPARENT FINISH

KLEARTOP is a transparent, two-component topcoat based on special waterborne, poly-acrylic resins. It can be used on interiors and exteriors and has excellent performance characteristics including hardness, chemical and abrasive resistances. Available in four grades of sheen: KLEARTOP 5 (matt), KLEARTOP 30 (satin), KLEARTOP 50 (semi-gloss), KLEARTOP 100 (high gloss). Specific for AKRYLINE and DEKORITE, but it can also be used as a protective layer for ADICOLOR decorative coatings.

0,75 - 3 litri

## Koverwall

### RIVESTIMENTO PER PARETI

Vernice di finitura monocomponente di altissime prestazioni. Altamente resistente a graffi, acqua ed usura garantisce lavori di altissima qualità offrendo, in alcune applicazioni, caratteristiche che non eguagliano ma si avvicinano a quelle di un bicomponente.

### WALL COATING

Single-component, clear, high-performance waterborne resin for walls. Extremely resistant to scratches, washing, rubbing and hard-wearing, it allows you to create high-quality works with performances that come close to a two-component resin.

0,75 - 3 litri

## Metalgel

### RIVESTIMENTO MURALE CON POLVERI DI METALLO

Prodotto monocomponente in base acquosa, formulato con resine poli-acriliche, da miscelarsi con polvere di rame o di zinco per riprodurre gli effetti naturali dei metalli prescelti.

### WALL COATING WITH METAL POWDERS

Mono-component, waterborne wall coating, formulated with poly-acrylic resins, to be mixed with copper or zinc powder in order to reproduce the true natural effect of the chosen metal.

5 litri

## Plaintop

### RIVESTIMENTO LUCIDO PER PAVIMENTI

Prodotto bicomponente epossidico trasparente alto solido esente da solventi da catalizzare prima dell'uso. Nato come autolivellante trasparente a basso ingiallimento può essere anche usato per inglobare oggetti o essere colorato per creare effetti estetici unici. Se impastato con quarzo sferico può essere usato per ciclo multistrato su pavimenti industriale.

### GLOSSY FLOOR COATING

Clear solvent-free high-solid two-component epoxy resin to be catalysed before use. Designed as a clear low-yellowing self-levelling coating, it can also be used to enclose objects or it can be tinted to create unique decorative effects. When mixed with spherical quartz it can also be used for multi-layer cycles on industrial floors.

5 - 10 litri

## IL PROGETTO

- ADIHOME è un progetto innovativo, personalizzabile e dal forte impatto emozionale, attraverso il quale proporre e valorizzare la nostra gamma di prodotti decorativi e tradizionali. Un sistema tintometrico rinnovato e potenziato, unitamente ad un'ampia proposta di servizi e soluzioni marketing e commerciali, vanno a completare un'offerta realmente straordinaria;
- ADIHOME è un progetto completo e di grande efficacia nel guidare il cliente alla scelta del colore e del prodotto più idoneo alle proprie necessità;
- ADIHOME è un progetto che qualifica il Punto Vendita e ne favorisce la crescita perché permette di interessare e coinvolgere anche la fascia di mercato più professionale ed esigente.

## THE PROJECT

- ADIHOME is an innovative and adaptable project of strong emotional impact, focused on targeting and enhancing the presentation of our range of decorative effect finishes and traditional painting products. An extraordinary offer that is accompanied by a totally renewed and updated tinting system and combined with wide choice of sales and marketing solutions and services;
- ADIHOME is a comprehensive and highly effective project aimed to guide customers in their choice of the ideal color and the most appropriate product to suit their need;
- ADIHOME is a concept that highly qualifies Points of Sale, promoting their growth by stimulating interest and encouraging even the most demanding professional segment of the market.

## THE PROJECT TARGET

ADIHOME is designed for Retail and Wholesale paint stores and outlets that have the required structure to promote and market Adicolor products and decide, with strong motivation and enthusiasm, to adhere to this interesting project.

### OUR PROPOSAL INCLUDES:

- The design and construction of the exhibition space;
- The supply of the tinting system;
- The supply of the descriptive and promotional material;
- The participation in our advertising campaigns;
- Support in future marketing and sales initiatives in the area;
- Pre and post-sale training and assistance;
- Contact with architects, interior designers, decorators and other professionals in the field.

### THE IDEAL REQUIREMENTS FOR THE ADHERING POINTS-OF-SALE:

- An adequate space to accommodate all or part of the exhibition project;
- Qualified and well prepared personnel able to present the aesthetic and functional features that distinguish our products;
- The ability to manage and develop a professional relationship with architects, interior designers, decorators and generally with all customers, to efficiently promote the sale of Adicolor products.

*adihome: a successful project!*
